

PAEDIATRIC LITERACY SERVICES

Our Paediatric Literacy Services include:

- Comprehensive assessment services utilising up-to-date assessments
- Detailed reports at the completion of assessments and therapy blocks
- One-on-one and group sessions designed to meet the needs of each individual
- Services are available for any school aged child needing help with their literacy
- Holiday literacy intensives are available during January and July each year.

What can I expect on the day of my appointment?

- Your child will be seen by a student speech pathologist under the supervision and support of a qualified Speech Pathologist
- You will be asked questions about your child's development and any areas of concern you have as well as any specific concerns regarding their progress in school
- Your child will be asked to answer some questions and perform some tasks to allow our Speech Pathologists to identify any areas of their literacy skills which we can assist with
- Decisions will be made, in consultation with you, about ongoing treatment for your child
- All our Speech Pathologists are experienced in working with children and adolescents and are skilled at making the experience fun and positive for your child.

Why choose UQ Health Clinics?

When you come to UQ Health Clinics you are not just another client. Our students are demonstrating their contemporary, evidence-based skills and knowledge while being supported by experienced and passionate Certified Practising Speech Pathologists. You and your child are the beneficiaries of their enthusiasm, dedication and willingness to go above and beyond.

No referral is required.

What are the costs?

The costs for each clinic vary depending on the model being utilised. This can all be explained to you at the time of making an appointment.
